

Technical Data:

Dosage volume: 50mm³ per pulse

Range of viscosity: 10-700cst

Operating pressure: max. 50 bar

Range of ambient temperature: 0-80°C

Setting: Through release of the locking nut SW 8

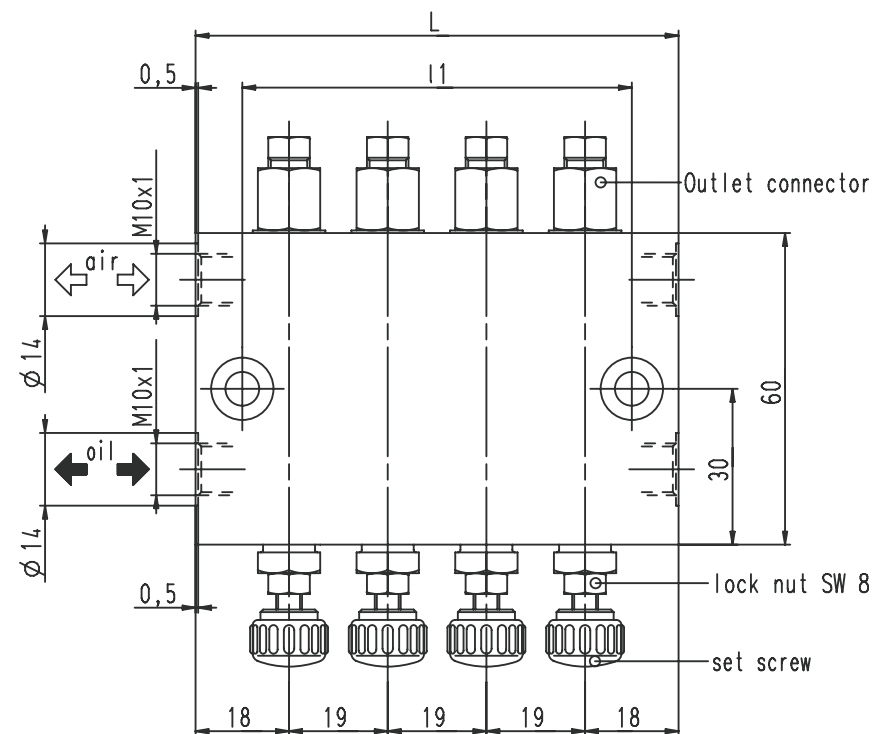

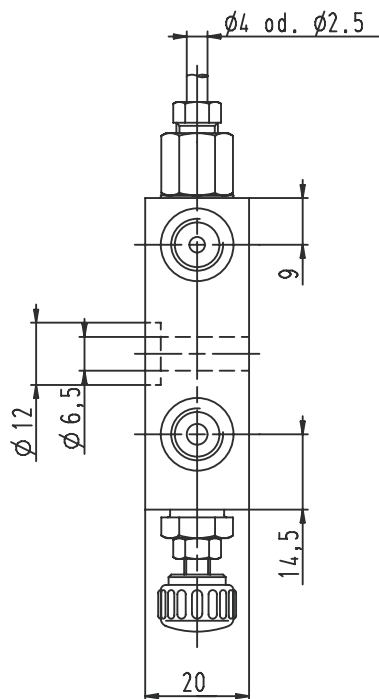

One turn of the set screw will change

the dosage volume at 10 mm³

The valves are set to full stroke

Installation situation: arbitrary

Number of lubricating points: alternatively 2 up to 10

Order-no.: _____ 4283 02 06 000

Construction no.: _____

Tube dia.	2.5	4							
Code	01	02							
No. of lub. points	2	3	4	5	6	7	8	9	10
Code	02	03	04	05	06	07	08	09	10

Special edition: _____

Number of lubricating points	2	3	4	5	6	7	8	9	10
Measure L	55	74	93	112	131	150	169	188	207
Measure l1	37	56	75	94	113	132	151	170	189

Characteristics:

The lubricant supply is carried out by a central lubricating plant

Through this the plant can get safe of being ventilated and monitored

The necessary lubricant quantity could be delivered

optimal to each lubricating point

Easy installation and variable in the no. of outlets

Space-saving by a flat style

Through changing the outlet connector could be changed from oil/air lubrication

to a exclusive oil lubrication

modifications reserved!
